

ROS-Based Multi-Agent Systems Control Simulation Testbed (MASCOT)

Arvind Pandit, Akash Njattuvetty, and Ameer K. Mulla

Department of Electrical Engineering
Indian Institute of Technology Dharwad, India

Indian Control Conference (ICC-8)
14-16 December 2022, Chennai, India.

Overview

- 1 Introduction
 - Multi-Agent Systems
 - Simulation Platform for Multiagent System
 - MASCOT
- 2 Preliminaries
 - Frame of Reference
 - Quadcopter Dynamics
 - Quadcopter Dynamics as Double Integrator
- 3 MASCOT: Structure and Features
 - Tools Used
 - Control Block
 - Architecture
 - Features
 - Configuration
- 4 Examples
 - Way-Point Navigation
 - Consensus Algorithm
 - Min-Max Time Consensus
- 5 Conclusions and Future Work

Multi-Agent Systems

Simulation Platform for Multiagent System

MASCOT

Preliminaries

Frame of Reference

Quadcopter Dynamics

Quadcopter Dynamics as Double Integrator

MASCOT:Structure and Features

Tools Used

Control Block

Architecture

Features

Configuration

Examples

Way-Point Navigation

Consensus Algorithm

Min-Max Time Consensus

Conclusions and Future Work
